No attempt has yet been made to arrest the Fugitive Slave for whom a warrant has been issued. There is some excitement about the matter among the colored population. The Slave has probably ere this been placed in concealment,—his name is said to be Craft, a Cabinet Maker by trade, who escaped from Macon, Georgia, two years since, and has been doing business in Cambridge street.

Ourrageous Conduct of a Boat's Crew, resulting in One Death, and the Attempted Sulcide of Two Fugitive Slaves.

We are called upon to record this morning one of the grossest and most inhuman outrages that has ever come to our notice. It is the diabolical conduct of the crew of one of the boats upon the Eric Canal, toward a colored family who were passengers with them, resulting in the attempted suicide of the Father and Mother, and the drowning of their child! It appears that the man, named Wm. Harris, and his wife and child, succeeded a

Wm. Harris, and his wife and child, succeeded a few weeks since in escaping from their master, in South Carolina.

At Philadelphia they came under the notice of the friends of the Fugitive, who aided them northward. At Albany some friends paid their passage to Rochester, where they were to cross the Lake to Canada. On Monday last the crew of the boat which they were harmed that they they have because the control of the con to Canada. On Monday hist the crew of the boat on which they were learned that they were fugitives, and immediately devised a plan to trouble and terrify them, probably thereby finding amusement. On Monday night some of the human fiends, in prosecution of their plans, went to the berth of the man Harris, and awaking him informed him that his master was on board the boat and that they would surrepude him and family isto. and that they would surrender him and family into his hands. Harris drew a dirk with which he was armed for self-defense, drove the scoundrels on deck, and by his decisive manner and actions kept them at bay till morning. In the morning he was informed that his master had left the boat

On Tuesday evening, about 5 o cleck, the boat came to a stopping place at the first Lodi Lock, about a mile cast of this city. As is often the case, a number of persons went aboard the boat. Harris supposed they came to take him, being so informed by some of the crew. In his desperation he seized his razor and drawing it forcibly across his throat, jumped into the canal. His across his throat, jamped into the canal. His wife, with their child in her arms, leaped after him; all determined to die rather than again come under the Slaveholder's power. Efforts were then

Harris was immediately conveyed to the office of Dr. Hoyt, who dressed his wounds, and gave him other needful attention. It was found that the cut was not so bad as it might have been, although severing the wind-pipe, but being too high an did not prove fatal.

We have in this outrageous affair one of the effects of the in the outrageous aftair one of the effects of the "bill of abominations," which at the least serves to render wretched the colored portion of our population. We are, however, happy to state that Harris and his wife are now in good hands, that they will be suitably cared for, and as soon as possible put beyond the danger of the slave-catcher's grasp.

ROAD COMPANY S400,000 SEVEN PER. CENT. MORTGAGE LOAN—Scaled proposals for four hundred thousand dolars of the first and only Mortgage Roads of the Michigan Southern Railroad Company, bearing Stowenher next.

These bonds are issued under the provisions of a special act of the Legislature of Michigan, authorizing the Company to dispose of or soil their obligations, either within or without that State, at such rates or prices as may be agreed upon, and if soid below par, to be as binding as it soid at par.

They are secured by a mortgage executed to Shepherd.

They are secured by a mortrage executed to Shepherd Knapp, Esq of the City of New-York, in trust for the bondholders.

This mortrage covers the entire line of the Company's Road in Michigan, whether already built or hereafter to be constructed, and it provides that bonds to an amount not exceeding one million of dollars in all, may be issued; of which amount not may than \$400,000 can be issued until after the Road shall have been completed to Surges! Prairie, a distance of 117 miles from Lake Erie, to which point it will be completed by the first of January next.

The security offered for the bonds is therefore a mortgage flen, and substantially the only lieu, upon a road which when complete to the state line of Indiana, will have nearly 140 miles of main line, beside a branch of 10 miles, and which will have cost, including the original outlay by the Sarte, and the relaying the present track, about \$2,500,000; of which \$1,500,000 will be represented by stocks.

The portion of the road already in operation, about 70 miles, yields an income ample to protest the entire debt proposed to be created, and the length of completed line and consequent increase of all place the payment of the debt beyond all contingence.

For August, 183. These receipts were derived from the road of the contingence of the continuous line in the case of the main line now in operation.

This road is a part of a continuous line of Railroads from the City of New-York to the Mississippi River, at the Indiana State line, early next Spring; thus doubling the length of the Erie Railroad and the Lake Shore Road, and is an important link in the chain.

Nearly the whole of this great line from New-York to the Mississippi River, by way of the Erie Railroad and the Lake Shore Road, and is an important link in the chain.

Mississippi River is either completed or in the struction.

As the means for the construction of the road ready for the fron are provided for by stock subscribed and heing paid in, by regular installments, and the proceeds of the bonds are mainly required for the purchase of from heavy H rail and equipments, it is besieved that no railroad bonds before the public offer greater inducement for safe investment than those of this Company.

The morigage empowers the Trustees, in case of failure, to pay the principal or interest of the bonds, to take possession of the road and receive its earnings, or to sell it, on due-notice, and apply the processis to the extinguishment of the debt.

debt.

The bonds are in sums of \$1,000 each, payable at the Mechanics' Bank, in the City of New-York, Nov. 1, 1900, with interest at seven per cent, per annum, payable semi-annually in New-York, on the 1st Nov. and 1st May. Interest warrants or coupons, are attached to the bonds.

Four hundred thousand dollars of the bends are now offered for sale.

If the offers are not satisfactory.

All necessary information in relation to the bonds, together one of the many be obtained by calling on WINSLOW, LANIER & CO. or E. C. LITCHFIELD, at either of which the attention of the attention of S and OTHERS offers are industry ured, operty has been singly, with the state of bernaut in equal amounts on the 1st and 15th of Decomber next; but any party will be at liberty to pay in full at once. Interest will commence from the day of payment.
